

# Winter 2026 / 2027

Relax, enjoy beautiful things and trust your feelings – these were the thoughts that guided us throughout the creative proces.

The collection is woven from five unique stories – each telling its own world, its own inspiration. It takes you from the silence of nature to the glamour of the city, from the simplicity of line to the richness of pattern.

Together they create a space where elegance meets comfort and where fabrics is like a canvas on which each man can paint his own story, his own style and his own sense of beauty.

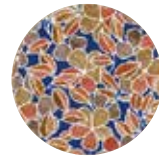

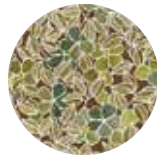

We create with passion and expertise. Welcome to Tekstina's world.
